RACING TEAM News:

Fall 2009 Issue

We just completed our sixteenth season of racing our Jeep YJ and second season for the Jr Dragster. For the first time in many years, the weather held for all our races and all of our vehicles ran well with no major mechanical issues.

This fall, some students from the Jr. program moved-up to full size cars as they got their driver's license and students previously at the Middle School joined our Team to continue racing Jr Dragsters. Unfortunately we only have one, so they have to take their turns or wait until the next race day to drive. So our goal this winter is to acquire another dragster with similar specifications for ease in common parts and the ability for teenagers to fit inside the small chassis.

Our Talon is working better this season, winning one race and runner-up at the next, but periodically ghosts still haunt the consistency and drivetrain. So winter plans include a rear-end swap, computer modifications, larger exhaust and hope-

fully a new Turbocharger system. Along with a crazy stereo system from our sponsor and formerly race students a decade + ago.

Next on our schedule is the annual Mission Candlelight Parade, B.C.'s largest night time parade which we started participating at back in 1997. Last year we won our category as we added another trailer in our float holding the new Jr Dragster and a sponsored bubble blowing machine. We strive to better our float every year and this year we have been promised another

bubble blowing machine and a snow making machine too!!! We've come a long ways from driving it down main street, using a semi trailer and now two trailers with roof, lights, stereo and special effects towed by our Jeep Grand Cherokee.

**Fresh faces
join our race
team this fall,
as graduated
Middle School
students start
High School
with us.**

Media:

The October issue of Jp magazine featured our race Jeep in a three page spread. This is our third major (International) magazine feature of our race program.

Sponsorship:

Sponsors, I can never say enough good things about them, for without them we couldn't operate this program. Our School Board allows us to place corporate logos on our race vehicles, trailers and uniforms.

We are looking for a major sponsor or a couple associate sponsors to purchase a second Jr. Dragster. We've found a twin to our current Jr. but need to raise some cash to make this happen. Our Vinyl graphics department will wrap the new Jr. with a custom design to the sponsor's delight and the vehicle would be available for spon-

sor shows and media related activities. Smaller product decals will be placed on our other race vehicles as well. Everything is negotiable, so if interested please contact us.

'09 Drag Stats:

Provincial Championships Series:

2nd, 4th and 7th Place

Won Top High School Owned vehicle (Talon)

2nd Place in Jr. Dragster

Mission Raceway Championship

Series: 5th, 9th, and 11th

Won Top HS Owned vehicle (Jeep YJ)

3rd Place in Jr. Dragster

Abbotsford Professional Fire Fighter Series (Mission):

1st and 2nd place (Jeep YJ / Talon)

3rd Place in Jr. Dragster

We really appreciate the monies and supplies that our many sponsors provide for this valuable extra-curricular activity. We encourage our students/families to support those that support us. Thanks to all our sponsors for without you we would not be where we are today.
